## REASONS FOR ALLOWANCE

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, *at least two separating plates, which surround the outer surface of the coil body thereby providing at least one coil area on the outer surface of the coil body for holding a wire that forms a part of a coil; wherein each separating plate is made of metal, includes an opening for pushing the separating plate over the coil body and a slit for prohibiting short circuits and leakage currents within the separating plate, and in that the separating plate forms a winding of another coil.*

Claim 18 recites, inter alia, *pushing at least two metallic separating plates with an opening over the coil body and positioning the separating plates at a specific plate-distance by winding a wire in said coil area around an outer surface of the coil body thereby pressing the separating plates against a side support, where a part of a coil is provided by said wire and a winding of another coil is provided by a metallic separating plate.*

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
